

Giardino Lago, Minusio-Locarno

As good as being by the sea

Although the horizon over Lago Maggiore is not endless, the same cannot be said for the options offered. The small Palazzo moderno only has 15 rooms, which makes it easy to block out for your team or company. What's more, there are also many exclusive features for you – the huge Roof Lounge with space to develop ideas, the view over the lake will clear your mind, and the restaurant will ease any worries you may have. This is how work should be.
