Il Matcha è una delle varietà di tè verde più preziose al mondo. La polvere viene ottenuta dalle punte delle foglie della pianta del tè. Queste vengono selezionate a mano, essiccate e quindi macinate in polvere fine con mulini di granito. Ha un colore verde intenso e un sapore dolciastro, leggermente acidulo nelle raccolte tardive. Bere il tè Matcha rende felici, ha un effetto antiossidante, è un vero booster anti-invecchiamento e rafforza il sistema immunitario.

Der Matcha zählt zu den kostbarsten Grüntee-Sorten der Welt. Das Pulver wird aus den Blattspitzen des Teestrauches gewonnen. Diese werden per Hand verlesen, getrocknet und anschliessend in Granitsteinmühlen zu einem feinen Pulver gemahlen. Er hat eine intensive grüne Farbe und einen lieblich-süsslichen, in späteren Pflückungen leicht herben Geschmack. Matchatee trinken macht glücklich, hat eine antioxidative Wirkung, ist ein wahrer Anti-aging Booster und stärkt das Immunsystem.

Matcha is one of the most precious types of green tea in the world. The powder is obtained from the leaf tips of the tea bush. These are hand-picked, dried, and then ground into a fine powder using granite stone mills. It has an intense green color and a sweet and slightly bitter taste, which becomes slightly more bitter in later harvests. Drinking matcha tea brings happiness, has an antioxidative effect, is a true anti-aging booster, and strengthens the immune system.
